SUMANSH YADAV

Aspiring Software Engineer

Mathura, Uttar Pradesh | Open to Relocate

sumanshyadav.1807@gmail.com | +91-9927672353 | LinkedIn | GitHub

Profile

B.Tech Computer Science student with hands-on experience building and shipping full-stack web applications using JavaScript, React.js, Node.js, Express.js, Java, Spring Boot, MySQL, and MongoDB. Experienced in developing responsive product interfaces, REST APIs, authentication systems, file and image-based workflows, automation, and database-driven applications. Built practical products involving inventory management, billing, OCR, voice search, WhatsApp alerts, placement preparation, and role-based workflows. Strong interest in product engineering, rapid problem-solving, and building user-focused software solutions.

Technical Skills

Languages: JavaScript, Java, SQL

Frontend: React.js, HTML5, CSS3, Responsive UI, Component-Based Architecture

Backend & APIs: Node.js, Express.js, Spring Boot, Spring Security, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Sequelize

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

Core Concepts: OOP, DBMS, Data Structures & Algorithms, Operating Systems, Computer Networks

Experience

HACK4TECH CLUB — Technical Team Lead **2026 – Present**

GLA University

- Contributing to the development and enhancement of the Hack4Tech web platform using React.js and component-based architecture.
- Collaborating with the technical team on feature development, responsive UI/UX implementation, Git/GitHub workflows, and project delivery.
- Leading technical development activities and coordinating team members to implement scalable and maintainable web solutions.

Projects

MediStock — Medicine Inventory & Management System

React.js | Node.js | Express.js | MySQL | REST APIs | OCR | Barcode Scanning

- Developed a full-stack product for medicine inventory tracking, expiry management, billing, and pharmacy operations using React.js, Node.js, Express.js, and MySQL.
- Built image-based OCR workflows, barcode scanning, medicine search, voice search, and stock tracking to simplify medicine identification and inventory operations.
- Implemented automated reorder functionality, medicine alternative suggestions, sales and billing workflows, and automated bill generation.
- Integrated notifications and WhatsApp alerts through modular REST APIs, supporting practical communication and automation workflows.

GitHub: Medical Inventory Management System

CoachCode.ai — Placement Preparation Platform

React.js | Node.js | Express.js | MySQL | Sequelize | JWT | Multer

- Developed a full-stack placement preparation platform supporting Student, Faculty, and Admin workflows using React.js, Node.js, Express.js, and MySQL.
- Implemented JWT authentication and role-based authorization with REST APIs for study materials, coding practice, mock tests, smart notes, and authentication workflows.
- Integrated MySQL with Sequelize for structured management of user, course, and assessment data.
- Implemented validated Multer-based file uploads with secure storage and built a responsive React.js interface using Vite and modular architecture.

GitHub: CoachCode.ai

Incident / Complaint Management System

Java | Spring Boot | Spring Security | React.js | MySQL | JWT

- Developed a full-stack system enabling users to report incidents and administrators to manage reported incidents.
- Implemented Spring Security with JWT-based authentication and authorization for secure user and administrator workflows.
- Developed REST APIs for incident creation, tracking, updating, and management with MySQL for persistent data storage.
- Built a React.js frontend integrated with the Spring Boot backend for end-to-end incident management.

GitHub: Incident Management System

Education

GLA University, Mathura **2024 – 2028**
B.Tech — Computer Science & Engineering *CGPA: 73.4%*

Nav Jagriti Public School, Roopaspur, Firozabad **May 2023**
Intermediate *81.2%*

Nav Jagriti Public School, Roopaspur, Firozabad **May 2021**
High School *87%*

Certifications

- **Java (Basic)** — HackerRank
- **SQL (Basic)** — HackerRank
- **Software Engineering** — NPTEL
- **AI and Cybersecurity Awareness** — TCS iON

Achievements

- **7th Position — VisionX 8-Hour Hackathon:** Demonstrated teamwork, rapid problem-solving, task division, and solution development under time constraints.
- **Selected Participant — Ideathon Prometeo'26, IIT Jodhpur.**
- **Participant — Dev!@thon 2025, GLA University.**
